

RM Series Fan Power Connection

RM Series spindles includes a 10m (32ft) M8 cable for 24vdc cooling fan power. The fan only utilizes two of the wires in this cable. The brown wire is +24vdc power, and the blue wire is 0vdc (or -VDC).

The CNC Depot turnkey spindle control box includes a 24vdc power supply suitable for fan power on the RM Series spindle. Those connection can be seen below:
